NUSS TRUCK & EQUIPMENT®

VOLVO

THE ALL-NEW VOLVO VNL

DESIGNED TO CHANGE EVERYTHING

SOLD, SERVICED AND SUPPORTED BY NUSS TRUCK & EQUIPMENT

WELCOME TO THE NEW VNL

HISTORY IS ABOUT TO REPEAT ITSELF

When the first Volvo VN debuted in 1996, it turned the trucking industry on its head. The all-new Volvo VNL does it again, rebuilt from the ground up with hundreds of next-generation features to improve your productivity and profitability.

At Nuss, we've put together everything you need to know in one place. Read through it, then let our Volvo team help you spec the right truck for your operation.

WHAT'S NEW

- Up to **10% better fuel efficiency** from new aerodynamics and powertrain
- Industry-leading connectivity, the **My Truck App** and **E-Call**
- Volvo **Blue Service Contract** with predictive maintenance
- Six cab models and four **trim levels** for easy choices
- Standard **Volvo Active Driver Assist** safety

EXTERIOR & AERODYNAMICS

THE WIND DOESN'T STAND A CHANCE

The curved windshield and angular profile are the first things you notice. Reduced drag over the entire truck is one of the biggest reasons the VNL delivers up to a 10% improvement in fuel efficiency over the previous model. That's money back on every mile.

10%
BETTER FUEL EFFICIENCY*

AERO IMPROVEMENTS, NOSE TO TAIL

Wedge-shaped body	Curved hood	Wrap-around windshield
Aero mirrors	Camera Monitoring System	Optimized roofline
Side deflectors & aero extender	Low-profile bumper & spoiler	Sized-to-fit grille
Front wheel closeouts	Chassis fairings	FlowBelow™ wheel covers

*Up to 10% overall fuel efficiency improvement vs. the previous Volvo VNL, per Volvo Trucks.

THE LINEUP

PICK THE MODEL THAT MATTERS MOST

Six cab configurations, from local day cab work to coast-to-coast long haul. Select your cab, pick a trim level, choose a paint color, and we'll handle everything in between.

74" FULL-ROOF SLEEPER

VNL 860

The flagship. A premium full-roof sleeper with top-of-the-line features, room for the largest refrigerators and a living space drivers are proud of.

74" MIDROOF SLEEPER

VNL 840

Maximum flexibility on long routes with varied loads. A midroof design that's still tall enough to stand inside, with a reclining mattress or pull-down bunk with dinette.

62" FULL-ROOF SLEEPER

VNL 660

Maximum load capacity meets comfortable living for general freight, with an upper bunk and plenty of upper storage for team driving.

62" MIDROOF SLEEPER

VNL 640

A well-appointed midroof sleeper for long-haul applications that are weight conscious, like bulk and liquid. Includes a full 39" wide standard twin mattress.

COMPACT MIDROOF SLEEPER

VNL 440

A highly maneuverable midroof sleeper for weight-conscious regional haul. Efficient storage and a 35" twin mattress make hours-of-service compliance easier.

DAY CAB

VNL 300

The premium day cab for short-haul, freight and refrigerated delivery, with outstanding visibility and maneuverability for local routes.

NOT SURE WHICH MODEL FITS?

OUR VOLVO TEAM WILL SPEC IT WITH YOU.

TRIM LEVELS

PICK A TRIM. DONE.

Volvo combines exterior and interior design choices into four trim levels, so it's easier than ever to get the truck you want. Every trim level comes standard with the VNL's best aerodynamic features.

ULTIMATE

PLATINUM CHROME GRILLE

The premium choice, with high-end finishes inside and out. Real wood trim, Sula Blue accents, satin chrome, push-button ignition, infotainment center and a leather-wrapped steering wheel.

EDGE BLACK

GLOSS BLACK GRILLE

Stand out without saying a word. Gloss black grille, bumpers and mirrors, black chassis fairings and accents, with dynamic accents on the door panels, seats and dash.

EDGE

GLOSS BLACK GRILLE, SATIN CHROME SURROUND

Bold styling with a gloss black grille and satin chrome surround. Body-color cab mirrors, hood mirrors and chassis fairings, plus premium audio.

CORE

BRIGHT CHROME SURROUND

Built for carriers with multiple drivers. Exterior trim that never needs painting during repair, and an easy-clean Fathom Blue and Logan Grey interior.

DRIVING ENVIRONMENT

STEP INTO YOUR NEW OFFICE

Everything where drivers want it and how they need it. A comfortable, modern cab helps you recruit and keep good drivers, and makes every shift easier.

STALK-MOUNTED SHIFTING

REMOTE & PUSH-BUTTON START

9" INFOTAINMENT CENTER

12" Driver Information Display. Digital gauges, including I-Shift oil levels and suspension loading, right in front of the driver.

Apple CarPlay & Android Auto. Optional apps, ELD support, an integrated driver's manual, navigation and backup camera views.

Built around the driver. Repositioned seat controls, adjustable wheel and controls that keep focus forward.

LIVING ENVIRONMENT

A SPACE THAT WORKS FOR YOU

The VNL sleeper is quieter, more comfortable and packed with amenities, putting the driver comfortably in command and maximizing productivity.

One of the industry's largest mattresses, plus an industry-first reclining mattress in most models.

Smart storage, a telescopic ladder to the upper bunk and room for a refrigerator and microwave.

Volvo Parking Cooler. Battery-powered cooling that can run a full night without idling.

Integrated bunk controls for lights, audio, locks, HVAC and batteries, within easy reach.

SAFETY

PREPARED FOR NEARLY EVERY “WHAT IF?”

Volvo's goal is zero accidents, because it's the only number that's acceptable. The Volvo Active Safety platform protects your drivers, your cargo and everyone around them.

VOLVO ACTIVE DRIVER ASSIST

Standard on every VNL. Collision avoidance technology helps drivers keep an appropriate following speed and distance, on highways or congested routes.

VADA PLUS

Optional. Adds Lane Keep Assist, Lane Centering and side pedestrian detection, with support for lane changes and side-collision warnings.

E-CALL

Industry first. After a rollover or airbag deployment, the truck automatically calls 911 and shares its location. Standard on all VNL models.

MORE SAFETY INNOVATIONS

Pedestrian detection. Radar detects pedestrians and cyclists entering blind spots

Volvo Dynamic Steering. Oversteer Guidance helps prevent rollovers and jackknifes

Camera Monitoring System. Superior rear views for backing and lane changes

Road Sign Recognition. Reads road signs and shows them on the dash

Automated high beams. Plus cornering lamps for low-speed turns

Airbag protection. Supports E-Call automatic emergency calling

POWERTRAIN

REDEFINING PERFORMANCE

The next-generation Volvo D13 paired with the I-Shift automated manual transmission. Volvo torque packages, including I-Torque, deliver power that's more functional and more efficient than ever.

CONNECTIVITY

THE MOST CONNECTED TRUCK IN THE INDUSTRY

Volvo Connect puts every critical part of your truck in one place. One login, one view. And the industry-first **My Truck App** lets drivers check fuel, oil and DEF levels, lights and cab temperature right from their phone.

VOLVO ASIST
Manage service and repairs with your dealer

VOLVO ACTION SERVICE
Proactive alerts when a fault needs attention

REMOTE DIAGNOSTICS
Issues identified before the truck arrives

REMOTE PROGRAMMING
Parameter and software updates over the air

SAFETY REPORTS
Insight into how your trucks are driven

FUEL ECONOMY REPORTS
Find savings across your fleet

UPTIME & SUPPORT

YOUR TRUCK. OUR TEAM BEHIND IT.

Buying the truck is just the start. Nuss Truck & Equipment backs your VNL with Volvo-certified technicians, Genuine Volvo parts and financing that fits your business, with Volvo's Uptime Center in Greensboro, NC, on call 24/7.

VOLVO BLUE SERVICE CONTRACT

AI-driven adaptive maintenance adjusts service intervals to real-world conditions, bundling work into fewer stops and catching issues before they cause unplanned downtime.

FINANCING & LEASING

Smart, flexible financing, full-service leasing and rental options to get you and your business moving fast. Ask your Nuss sales rep what fits your operation.

FLEET MANAGER

A dedicated contact at your dealer who pre-plans shop visits around your schedule.

CERTIFIED SERVICE

Volvo-certified technicians using Genuine Volvo or Authorized Parts and processes.

CONNECTED UPTIME

Remote diagnostics and Action Service alerts, so repairs are planned, not panicked.
